 Mitsuoka Motor Company Ltd.

Mitsuoka releases Galue, Left Hand Drive model, which is to be considered as foresight the overseas market for expansion.

Mitsuoka Motor Company Ltd (Chief Executive Officer: Mitsuoka Akio Headquarter: Toyama Prefecture, Toyama City) hereby announce that one of their model "Galue" will now be available in Left Hand Drive, with the intention to expand their overseas market.

Currently, MITSUOKA have dealership in the countries, where Right Hand Drive vehicles are driven, and the only country with left hand drive is Taiwan, where only the Mitsuoka Hearse Models are being marketed. Details regarding Left Hand Galue will be available at MITSUOKA global website and we are expecting and planning to expand our LHD market through this model. Since the time when we entered the Left Hand Drive market for expanding the market by entering the Middle East and China Market, this is the first time in six years when we are introducing the left hand drive for the general customers.

We are already under negotiations for the dealerships, with several companies from left hand driving countries. We are not just considering to introduce Galue, but other available models too, into those countries. Currently, as RHD Himiko is available in the UK market, left hand drive model are also being considered to introduce into the Europe market, as our expansion strategy.
